🌐 Portfolio: https://jaibh-portfolio.vercel.app · GitHub: https://github.com/JaiBh

💼 Currently available for junior front-end or full-stack developer roles in London (or remote).

Full contact details available upon request

Personal Profile

Self-taught front-end developer with hands-on experience building full-stack web apps using React, Next.js, and TypeScript. Skilled in creating responsive, user-friendly interfaces and implementing secure authentication and data handling. Eager to contribute to a collaborative development team and grow as a junior developer. Brings a strong work ethic and fast learning ability, developed through years in high-pressure roles.

Tech Stack

Languages: HTML, CSS, JavaScript, TypeScript

Frameworks: React, Next.js

Styling: Tailwind CSS, ShadCN UI

State Management: Jotai

Backend & Databases: Prisma ORM, PostgreSQL (NeonDB)

Authentication: Clerk, Convex

Tools: Git/GitHub, Vercel, Git Bash

Projects

💸 **Personal Finance App**

- Track income, expenses, budgets, and savings.
- Built with Next.js 15 App Router and TypeScript
- Integrated Clerk authentication and Prisma with NeonDB

- Implemented transaction filtering and dynamic budgeting UI

Live: https://www.jaibh-finance.xyz • **Code**: Github

🛍️ FusionFootwear E-commerce Store

- Full-stack shoe store with product filtering, Stripe checkout, and responsive design.
- Built with Next.js 14, Tailwind CSS, TypeScript, and Prisma
- Implemented dynamic product pages and checkout flow

Live: https://fusionfootwear-store.vercel.app • **Code**: Github

🧩 FusionFootwear Admin Dashboard

- Admin panel for managing products and variations via a modern UI.
- Built with Next.js, Tailwind CSS, Prisma, and Jotai
- Includes form validation, table views, and full CRUD logic

Live: https://www.fusionfootwear-admin.xyz • **Code**: Github
